

CraneSafe® Annual Crane Inspections Green Sticker

CraneSafe® (also known as the 'Green Sticker') indicates that a crane has undergone a thorough third party independent inspection and the crane is safe to operate at that time for another 12 month period. Proper records of maintenance are a vital component of the assessment.

Some of the features of the CraneSafe® program are:

- ✓ Ensures your equipment is compliant with Australian Standards
- ✓ Accepted by all state OHS Departments
- ✓ Accepted by all major contractors in both Construction and Mining Industries
- ✓ Third party independent inspection service
- ✓ Accepted by major insurance companies
- ✓ A guide to the condition of the crane and whether it should be sold
- ✓ Useful when buying a crane, both new and used, as to it's condition and level of compliance
- ✓ Recognised by the CFMEU in each state and territory
- ✓ Meets annual RWC inspection criteria in applicable states

CraneTrain are endorsed by CraneSafe® (QLD 1065) to conduct inspections on 11 of their 16 crane classes as follows;

- ✓ Rough Terrain
- ✓ Lattice Boom Truck
- ✓ Lattice Boom Crawler
- ✓ Hydraulic Truck
- ✓ Articulated Mobile
- ✓ All Terrain
- ✓ Hydraulic Boom Crawler
- ✓ Vehicle Loading
- ✓ Overhead Travelling Bridge or Gantry
- ✓ Telehandler - Rigid
- ✓ Telehandler - Rotating
- ✓ Truck Mounted

Established in 1992, CraneTrain has an extensive list of contacts and can arrange a CraneSafe inspection on your site or our premises with our own team or with independent inspectors. Depending on size we also have the resources to pick up and deliver your cranes and loadshifting equipment.
